Hormort.

Dr. Luther fagt in ber Borrebe ju feinem geiftlichen Befangbudlein: "Ich wollte alle Runfte, fonberlich bie Dufit, gern feben im Dienfte beg, ber fie gegeben und geschaffen bat." - Dauf unfern boben Beborben, bag Diefen berrlichen Borten unferes großen Reformatore auch binfichtlich ber Mufit bei ber Bilbung ber Lebrer an Rirchen und Schulen fomobl, ale auch in ben Bilbungeftatten ber Jugend gewiffenhaft Rechnung getragen mirb. Studenten ber Theologie und Roglingen ber Lehrerfemingre ift binlangliche Gelegenheit geboten, ben tofflichen Lieber. und Melobienicas unferer evangelifden Rirche fennen und benuten ju lernen. In jeber Bolfeichule mirb ein großer Theil ber Gingftunben jur Ginubung von Choralen verwendet,

Bie febt es nun mit ber Befolgung bee lutherifden Grundfages bei ber Dufit in ber driftlichen Familie? Gin Scherflein beigutragen, bag biefelbe auch im Saufe mehr und mehr in ben Dienft beffen genommen merbe, ber fie gegeben

und gefchaffen bat, mar bie Beranlaffung ju porliegenber Arbeit.

Um bie auf bem Titel angegebenen 3mede ju erreichen, babe ich bem Berichen folgende Ginrichtung gegeben:

Das Tafdenchoralbuch enthalt mit Ausnahme eines einzigen Liebes, bes großen Lobgefanges, fo viele Delobien, ale beim Gebrauche ber meiften fachfifden Gefangbuder notbia fint.

Cammtliche 162 Chorale fint, um bas Auffuchen ju erleichtern, nach bem Alphabet geordnet,

Bas ben Tonfat ber Chorale betrifft, fo bemerte ich, bag Ginfachbeit in ber barmonifchen Bebanblung, Reft. haltung ber alten Tongrten, mo fie moglich mar, und murbige Bebanblung ber Baffe bie Grundprincipien beffelben gemefen find. Da aber bae Choralbuch junachft fur bie baueliche Erbauung bestimmt ift. fo babe ich fammtliche Chorale claviermagia gefett, und gwar fo, bag fie felbft von mittleren Spielern, ja von Rindern, fobald fie eine Octave greifen, gefpielt werben tonnen. - Um mit einem vollen Accorbe gu ichliegen, babe ich bie Terg bee Dominanten Accorbes eine Ters abmarte, alfo nach ber Quinte bee Schlug-Accordes fallen laffen. Ber beim Gingen eines Chorales bie Ters aufmarte nach ber Tonica ichreiten laffen will, mag es immerbin thun. Den Umfang ber Delobie anlangent fint bie Grengen eines Deggo. Copran (f und c) weber in ber bobe, noch in ber Tiefe überichritten worben.

Ber burch Singen und Spielen eines Chorales benfelben lieb gewonnen bat, begehrt gewiß auch Auffaluß über Zichter und Componifien beffleben und bie Zeit, in der sie geledt. Diefem Berlangen bin ich dadurch nachgefonnnen, daß ich nicht erft als Andang (ber so leicht überschen wirb), sondern gleich reclie über bem Choral Veitzen über den Componissen, rechts unter bem Teit Notizen über den Dichter aggeben habe. Die eingeflammerte Zast hinter bem Dichternamen bedeutet das Jahr, in verdehm tas gleich guerft gebrucht worden ist,

Um den Gebrauch des Choralbuches bei Sausandachten möglichft zu erleichtern, habe ich nicht nur über dem Choral die Anmmern ausgezichnet, nach welchen das Lied im Treedner, Leipziger oder Freiberger Gestangbuche zu finden ift, sondern auch der Jahl ber Berfe angeschen. Ber das Lied im Urtert wünsch, dem empfelte sied.

1) Martin Lutbere geiftliche Lieber, herausgegeben von Ih. Badternagel. Stuttgart, Berlag von Sam. Gottl. Leifding. 2) Geifilde Lieber aus bem 16. Jabbunbert. Rach ben alterten Druden berausgegeben von Dr. J. Mibell, Professer am Ronial. Babel, Brofesser und Babel. Professer berausgegeben von Dr. J. Mibell, Professer am Babel. Professer ber ben bei Babel.

Das Bater Unfer und Die Ginfegungeworte nach ber Schicht'ichen Composition habe ich fur ben Gebrauch in ber Rirche angefing.

Mochte meine Arbeit in Rirche, Schule und Saus ebenfo mobimollende Aufnahme finden, wie ich abweichende Auffichten bantbar entacaenuelbmen werbe,

Giebt Gott feinen Segen, bag burch bies Buchlein bie Liebe ju bem Lieberfchage unserer evangelischen Rirche gesprobert und ber Sinn für Sansanbachten mehr und mehr gewedt werbe, to ift reichtich belohnt

ber Berfaffer.
